Rensselaer, Indiana
Volume 48

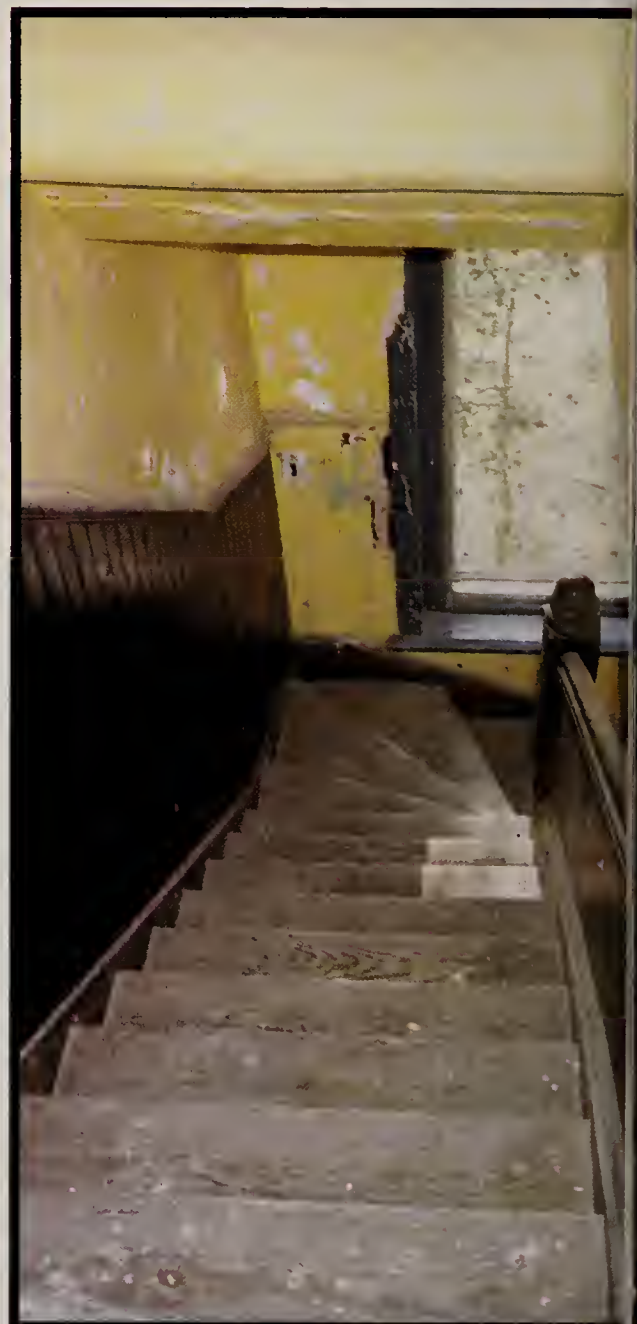

One step closer, everything we do brings us one step closer. We move closer to the weekend, the next break, graduation, the big match or meet and our various goals and objectives in life. In this book we want to move that one step closer with you. We hope that through the following pages we show you how we all became one step closer to . . .

As we step from one season to another, we are able to capture this change through the brilliant fall colors.

Loura Szucs pauses on the steps of Xavier Hall.

One of the less traveled stairwells on campus — Drexel Hall.

Theresa Klingenberg, Janis Regnier and Heidi Owens raise their cups in celebration at Merlini's annual Whip party.

Friends of the Merlini I.M. football team line the sidelines to cheer their team on.

Dave Calcutta and Dennis O'Hara lead the Pumas into the rec center for the Homecoming pep rally.

Tim Malarny et. al. put themselves through the rigors of testing.
Hawaiian clothes are the attire for the Whip Wanga Wunga social.

Kris Schubach takes a step up at rehearsal while Jackie Paczowski and Lee Such look on.

Some of our freshmen take steps to get to know each other.

An alternate route.

The larger community of Rensselaer, an arial view of the Courthouse.

Both the cheerleading and pom pon squads took steps to prep for the Puma pep rally.

Chris Mueller and Dan Dollear are obviously pondering some deep thought.

Members of the accounting/finance club stepped out ahead of the other clubs as their Homecoming float took first place.

Kitty's camping outside the faculty offices.

Tony Hoop seems to have adjusted well to the change of fields to Brookside Park.

Once again the Bennett pond appeared during September which always seems to be a great place to play football.

Sometimes our steps seem to lead in all directions.

Pumas are fired up to take on their opponents, the Bulldogs.

Kelley VanGilder and Karen Markovich take some small steps to dress up the Ballroom.

Puma couples make the most of the slower songs to get two steps closer at the mixer.

Catching a glimpse of sunshine and nature from inside Drexel.

The freshmen took one of the biggest steps in life when they entered the campus of Saint Joe's in August. Through orientation they became many steps closer to knowing the school and each other.

Kim Forsey readies for the snap.

Dr. Nichols gives a friendly wave as he descends the steps on his way to a Core lecture.

Who is that with the shades? Paul's about to do him i

The cheerleaders added their touch to Homecoming.

Peggie Bott steps back to practice the snap.

As the other students returned, they found themselves one year closer to graduation and the campus much closer to renovating goals. New windows were installed on Noll, Seifert, Aquinas and Bennett. Indoor renovations were also continued in Aquinas. New washers and dryers were installed at the laundromat. The most obvious addition to campus was the new recreation center.

As students got into the school year, things began happening very quickly and our steps were quickened. All the clubs and organizations began their activities, many starting the very first week of school. Some of the athletes found themselves here before classes ever began to prepare for the upcoming season.

oc Egan and the choir move a step in the right direction as they polish up this number.

Maureen Field steps back to action.

Sometimes our steps aren't the straightest.

A little work in the lab never hurt anyone.

Watch out, Halas is following you!

Dr. Berger, with his own unique style, tries to stir some discussion in his Core I class.

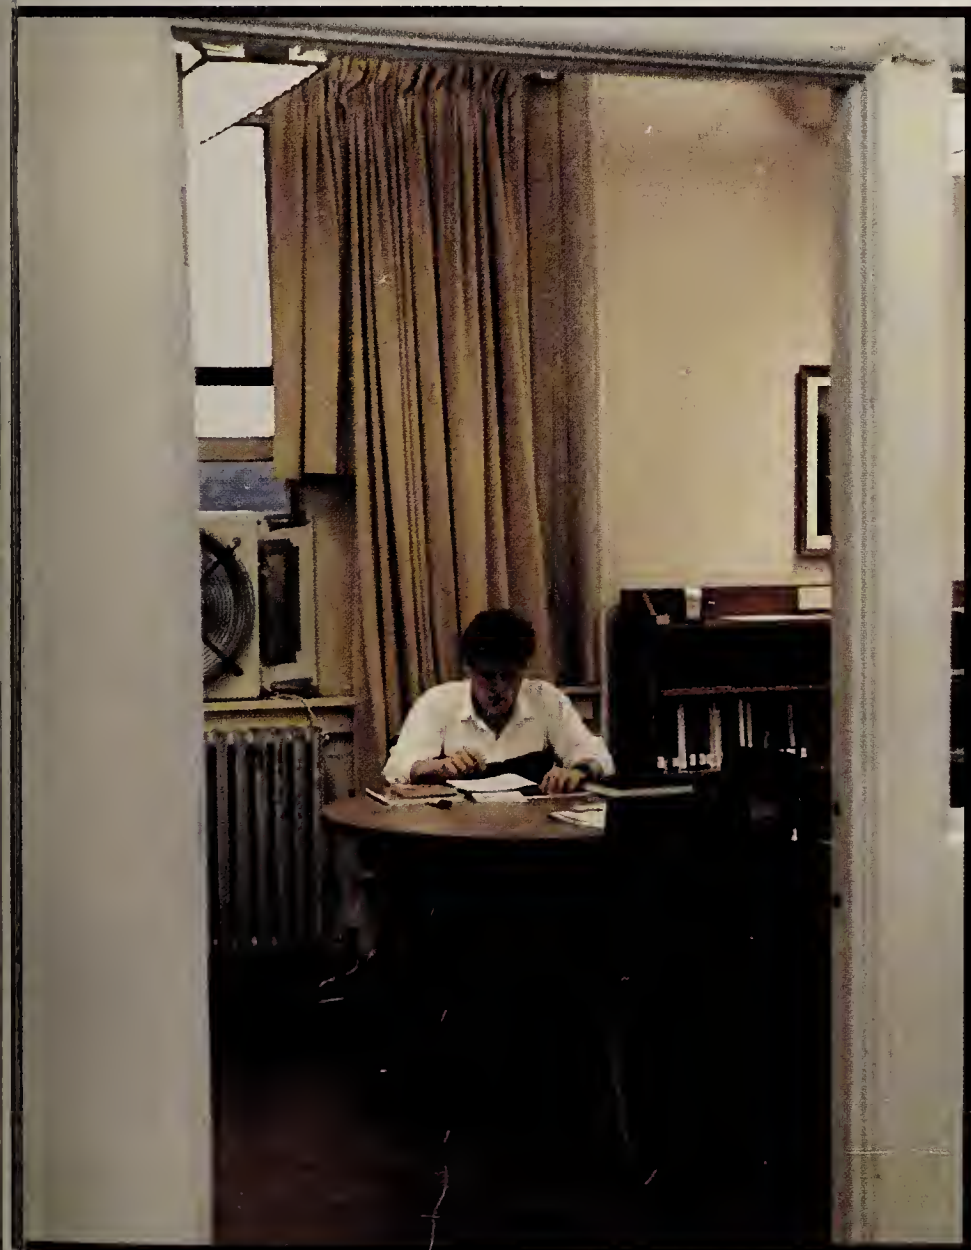

Homecoming was soon upon us before we ever knew it and midterms crept up just as suddenly. By this time everyone was well acquainted with classes and other students. The first quarter step of the year was finished.

If turning pages on a calendar was like running a race, most would have felt we were running very fast.

Phong Pham, Kevin Michalski, Ron Seth and Bryan McDowell certainly aren't cooking for the whole dorm!

Rather ominous looking!

el Bellucci steps into the library to do some serious studying.

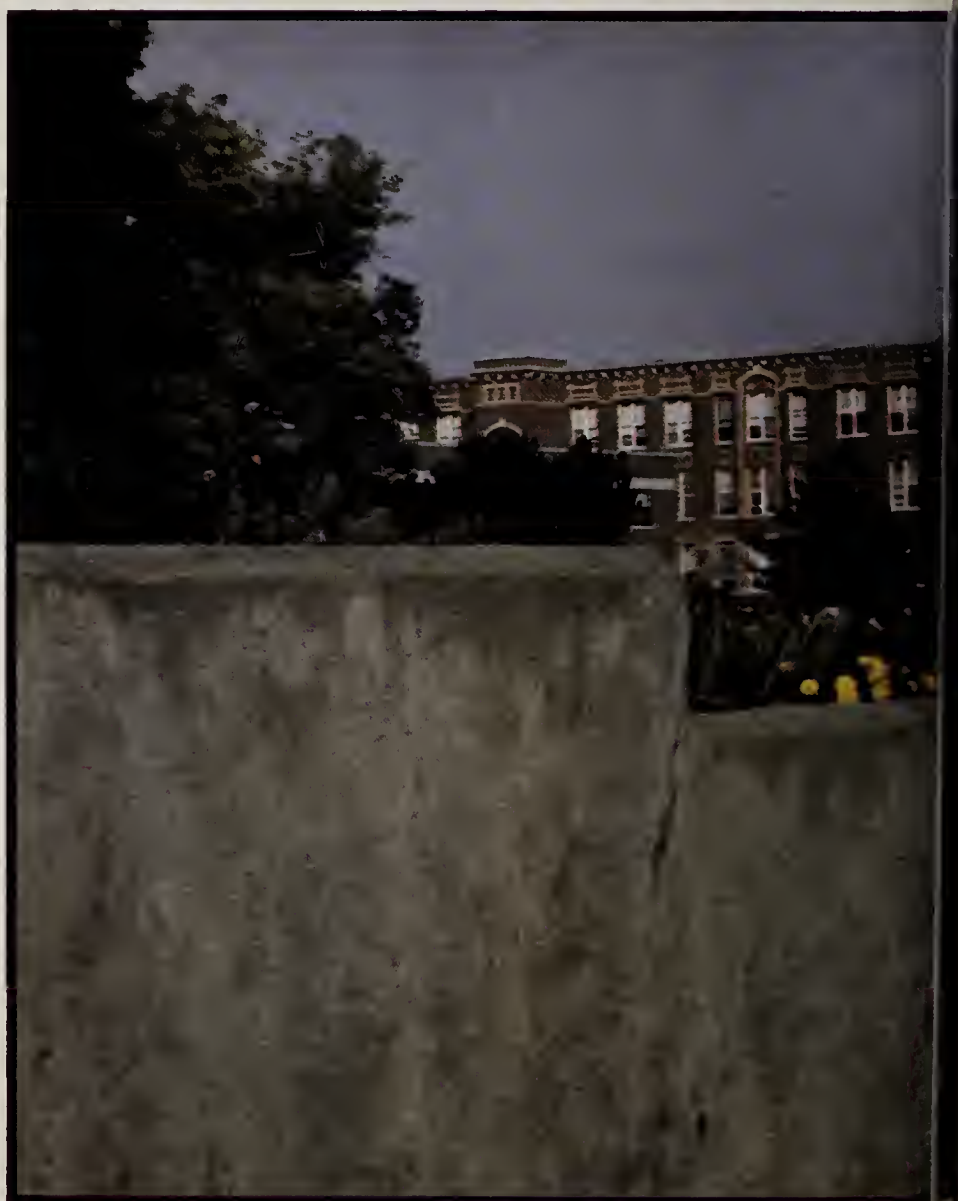

Kara Borgetti and Holly Hogan show some spirit on the track.

Entering the gridiron requires some psyching up.

Just one big happy family.

A rather unique use of steps, put into nature.

What's wrong with your eye, Joe?

Come on guys, let's show some strength.

A peeping tom? Oh, that's a cable repairman — a common sight for a few weeks at the onset of school.

The Pumas are doing some dog catching as exemplified on this float.

As we step into this next section, we want to capture life on campus through the special events and activities that have taken place this year. Some of the more traditional events took place,

some with a new twist. Other newer activities were on the scene.

Not all the events lie within these next pages, but we hope that there are enough to help you recall the rest.

Orientation

Although the freshmen arrive on campus before the upperclassmen, there is plenty to keep them busy. They are oriented to St. Joe's from an academic standpoint through tests and meetings with faculty advisers. Yet, their social side doesn't suffer in the meantime.

There is some sort of activity every evening for these freshmen to take part in. First, there was Playfair. It is safe to say that all who took part had a great time. Playfair is designed for those involved to get quickly acquainted with many people in a short period of time. One feels good about the group as a whole.

An ice cream social and a mixer to follow were sponsored by the Student Association. Students were provided with all the ice cream that they could have wanted. Afterwards, a local D.J. tossed records to dance or listen to.

Tim Campbell gets some physical support from some of the freshmen.

Group leaders, S. A. officers, and R. A.s were on hand to help out and to get to know the freshmen.

No, that isn't the moon falling from the sky. One of the Gamefest activities was a game of earth volleyball.

Is this guy excited to be here or what?!!!

On Sunday an activity similar to Playfair was implemented. Group leaders and S.A. officers alike went out to the lake for some games with a twist. The purpose of these events was to encourage people to feel good about themselves in a group. There was plenty for the freshmen!

and Lisa Berube were in charge in leading this exercise.

Parents' Weekend

Dan Lesjak is pictured here with his parents who came to visit for Parents' Weekend.

*LEFT: I'm not sure who these people are. I wonder if they have guest passes.
BELOW: All the ghoules and boos are twisting the night away.*

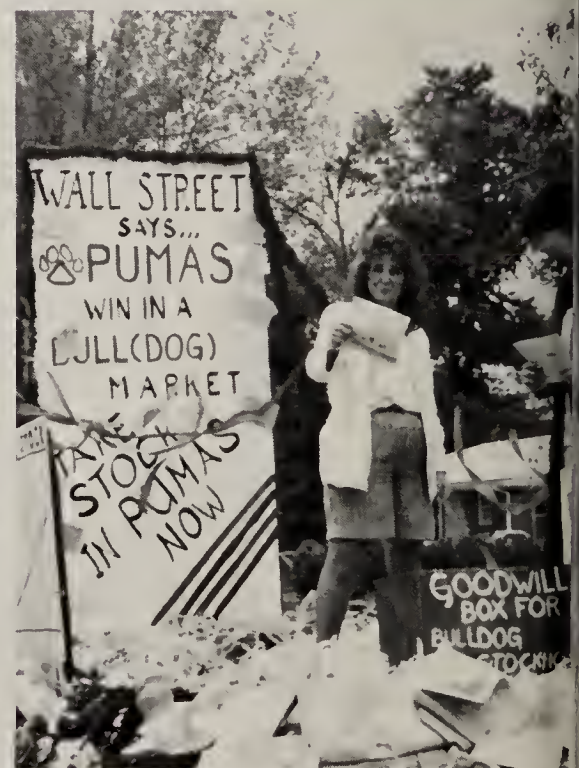

Professor White gave a presentation to the parents to explain a little bit of St. Joe to them.

RIGHT: Denise McCarthy, Karen Kolesiak, and Kelly Kerber stepped into the limelight and joined the parade as members of the Homecoming court. BELOW: Caging the Bulldogs was what the freshmen had in mind for our Butler opponents.

ABOVE: S.A. officers Herschel Richie, Tom Stefaniak, Michelle Shuck, Therese Yanan and Tim Campbell step out in style in the convertible. ABOVE RIGHT: Once again, the pom squad don a truck to partake in the Homecoming parade. RIGHT: For the second consecutive year the Acct./Finance float took 1st place.

Homecoming

Homecoming parade marched on by once again, this time with some new innovations. Antique cars were sported in the parade carrying the Grand Marshal, Phil Wilhelm, and Father President Banet. A small horse brigade was also a new addition. The floats that were entered all greatly ex-

ceeded those entered in past years.

Blue key, the club who is responsible for organizing the parade and seeing it through to completion did a fabulous job. The numerous phone calls and contacting of people paid off in high-stepping fashion.

LEFT: While the other members of the Homecoming court were riding through the parade in a car, Joy Horvat, also a member of the court, rode down the parade route on horseback. She was accompanied by two of her fellow officers of the riding club, Jill Martin and Sue Cooney.

BELOW: Juniors, Nina Kasch and Marie Adams flex their muscles as they ready for the parade to represent their class, the class of '88.

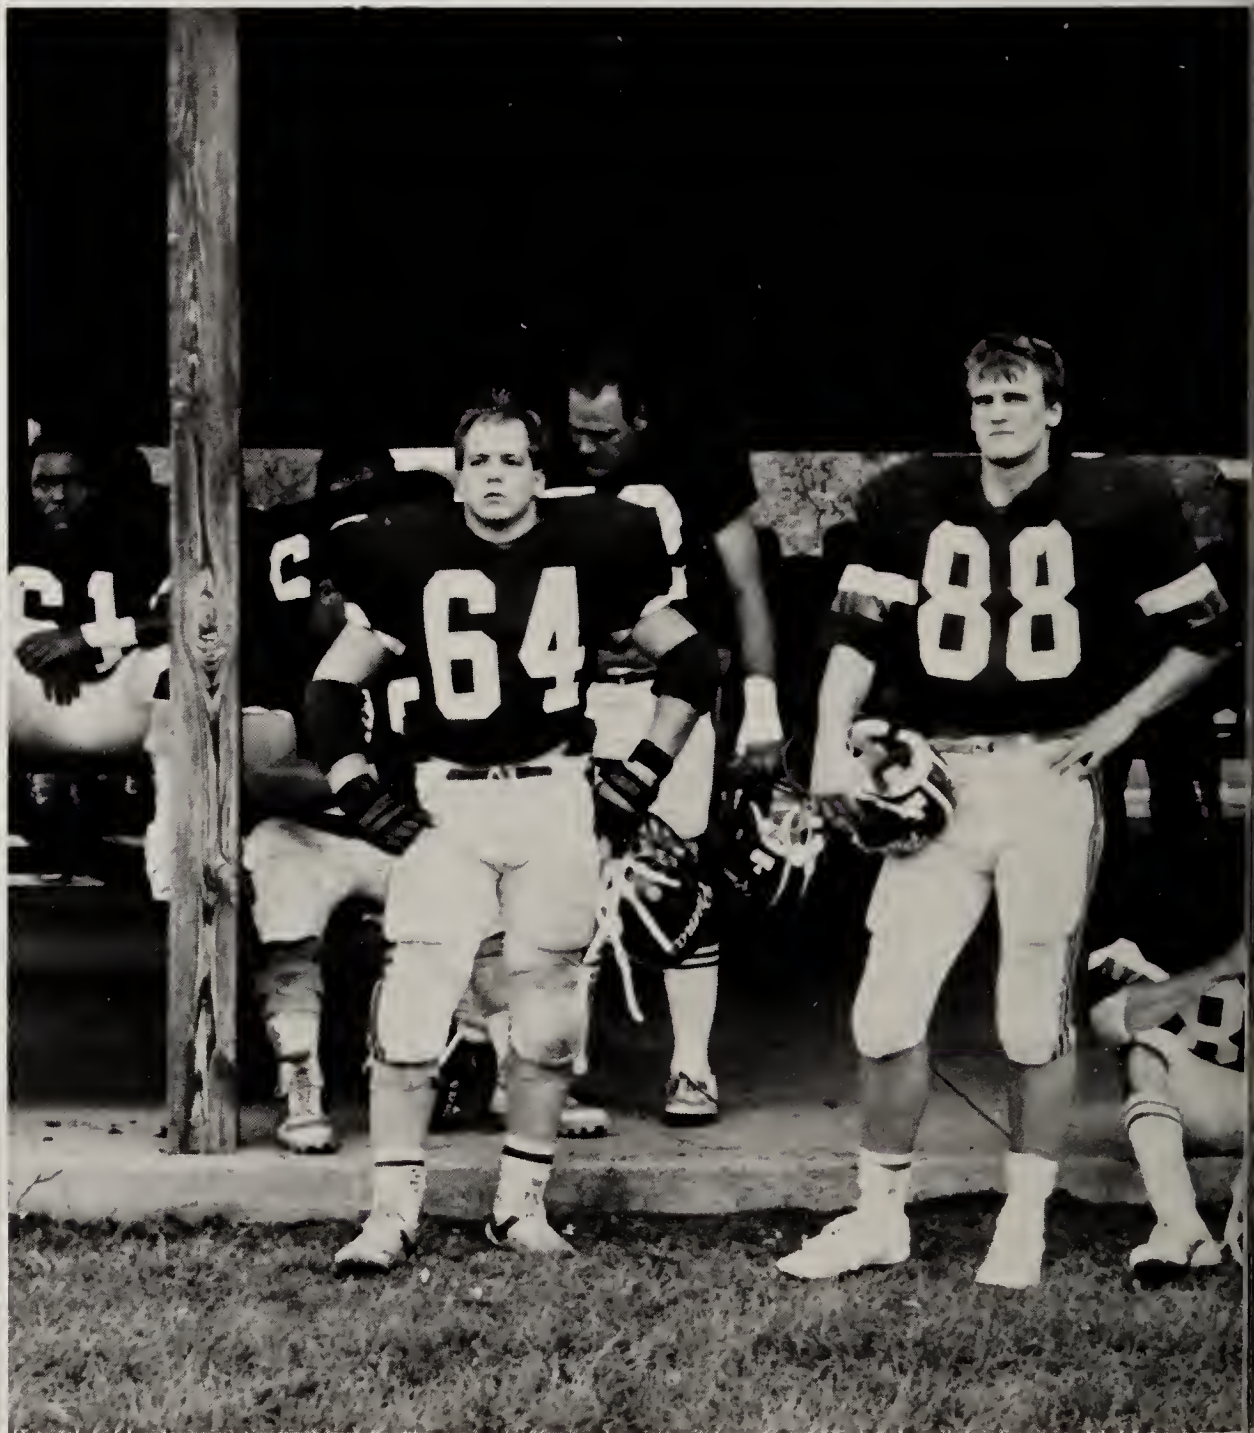

ABOVE: James Toombs, after breaking through one tackle, tries to plow through another one as the Bulldogs attempt to stop him in his tracks. RIGHT: Puma team members check their pads and mentally prepare themselves for their confrontation with their Butler opponents. Their makeshift locker room is a switch from what they're accustomed to, but now they must get beyond that as they ready to enter the gridiron.

The Homecoming game was not what most alums would have expected, or anyone else for that matter. Before the game even began, there were many new twists and bridges to cross. With all the rain that fell, the Puma field was flooded and a new home needed to be secured. Calls were made to schools in the surrounding areas to ask for usage of their field. Things were looking dim when someone recalled Brookside Park. The field hadn't been used in years but it was worth the chance. It was a go.

Arrangements were made to prep the field for the crowd. Bleachers were appropriated from other areas of Rensselaer. Phone lines were installed,

BELOW: Once again number twenty-two took off for the end zone without anyone around him. Throughout the game James continued to be one of the outstanding players of the contest.

a fence set in place, the field was lined, etc. It was an all-out effort but it was done. *Sports Illustrated* even recognized the efforts that were put forth. The words written there seemed to sum it all so well. Who ever said that school spirit was dead?!! The Pumas definitely showed otherwise.

BELOW LEFT: Pictured are the members of the Homecoming court, Diane Allbritten, Joy Horvat, Kelly Kerber, and Karen Kolesiak. BELOW: Queen Joy Horvat poses with her escort, Chris Murphy after the big moment.

Once again students dance to the sounds of Kool Ray and the Poloridz.

ABOVE: Julie Doyle and her date take a break from dancing to relax for a bit. RIGHT: Sue Nelson and Joe Jones do some celebrating before they head to the dance.

Justin and Halas did another great job with the annual Christmas dance this year. The Ballroom looked fantastic with the live trees, streamers and other decorations. The time that was put into planning and decorating was well worth it.

This couple seem to be having a good time at the dance

LEFT: It's really too bad that this picture isn't in color so you could get the full effect of the red and green cords. They really are a sight! LEFT: Renee and Kitty definitely look sharp.

Lana tells me that you didn't go to the dance, Ang, but probably had the most fun.

Fall Retreat

RIGHT: Looks like Martina's jamming past the line of people. BELOW: Are you two leaving before we've even gotten started? Stay just a little while.

ABOVE: This appears to be a friendly game of charades. LEFT: Father Ben curls up with a primate for a short nap.

LEFT: Ben Jackson and Doc Chesak stand with Brother Joe (a fantastic cook) for a group portrait.

The Campus Ministry team along with a few students organized a

fall retreat. Most past retreats have meant a weekend get-away to a local state park. This retreat was to a much closer place. The St. Bonaventure Novitiate was the site of this retreat. The theme that tied the weekend activities together was "Journey to Imagination."

This time away provided those who took part a chance to relax and enjoy an opportunity to be creative. Some quiet time is often needed but seldom taken.

LEFT: Stan, Mercedes, and Bob recline in the bean bags. ABOVE: Jill takes the group on a journey to stretch the imagination.

LEFT: Tammy and Martina, you both look a little confused. ABOVE: Tom Steigmeyer, Karen Johnson, and Sister Donna get into the swing of things.

ABOVE: Being a D.J. for the S.J.C. station, U90½, is a popular pastime. RIGHT: Mary Doherty is diligently working on the computer. FAR RIGHT: Ron Seth is trying to be tough like the Pumas on the field. That face is enough to scare your mother. BELOW: Jim Collins makes use of the rec center as he enjoys a game of volleyball.

LEFT: Mark Orlando offers his services as D.J. for the Gallagher party in the fieldhouse. BELOW LEFT: Judy Dever tosses some tunes down in the radio station. BELOW: Janis Regnier spends some of her spare time working in the business office.

Monique and friend give us a couple of smiles as they step off the floor for awhile.

ABOVE: Lisa Bishop really relaxes when she studies. Here, she's reclining in the Halas first floor lounge. Looks like she's watching more T.V. than she's reading.

RIGHT: Photographer, Denise McCarthy, gets her picture taken as she captures some action from the I.M. field. FAR RIGHT: This is the life, relaxing at the SJC laundromat with a good book!

BELOW: Joe Ruzevich is stepping out to class. Don't we all wish that we had such a short distance to go to class!

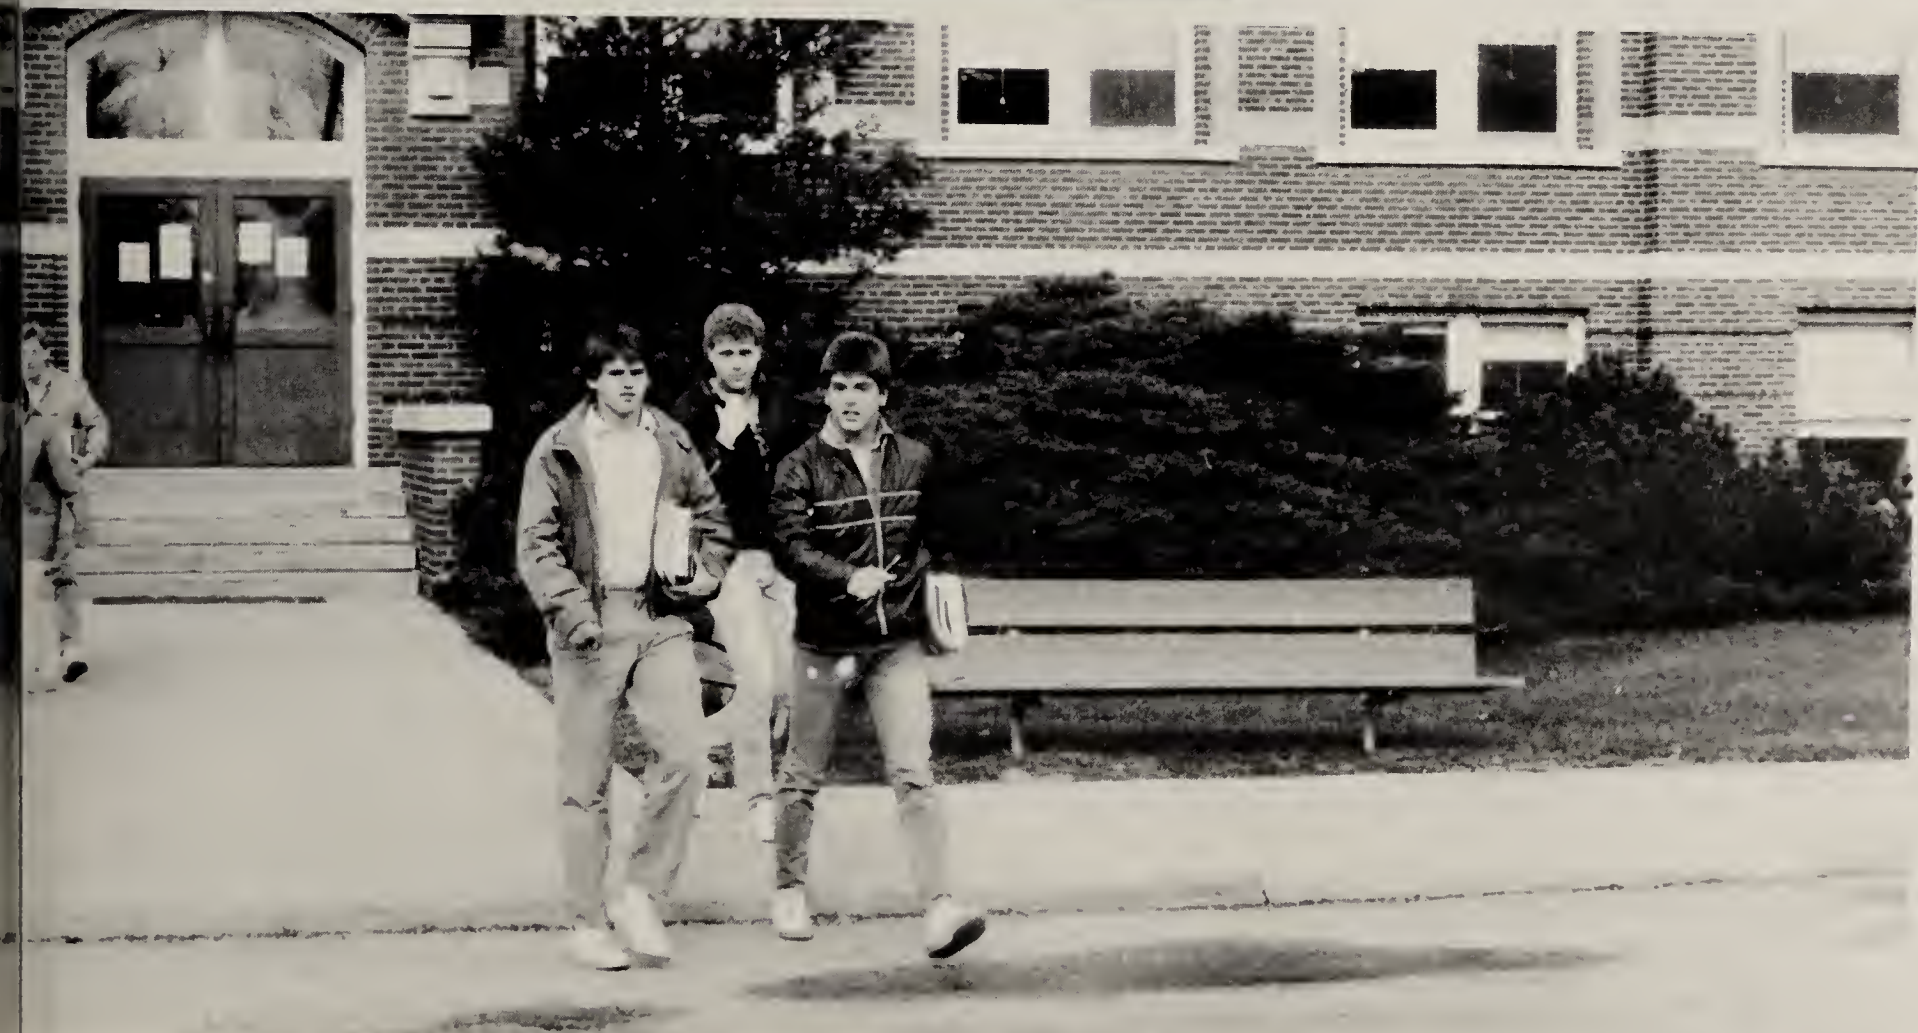

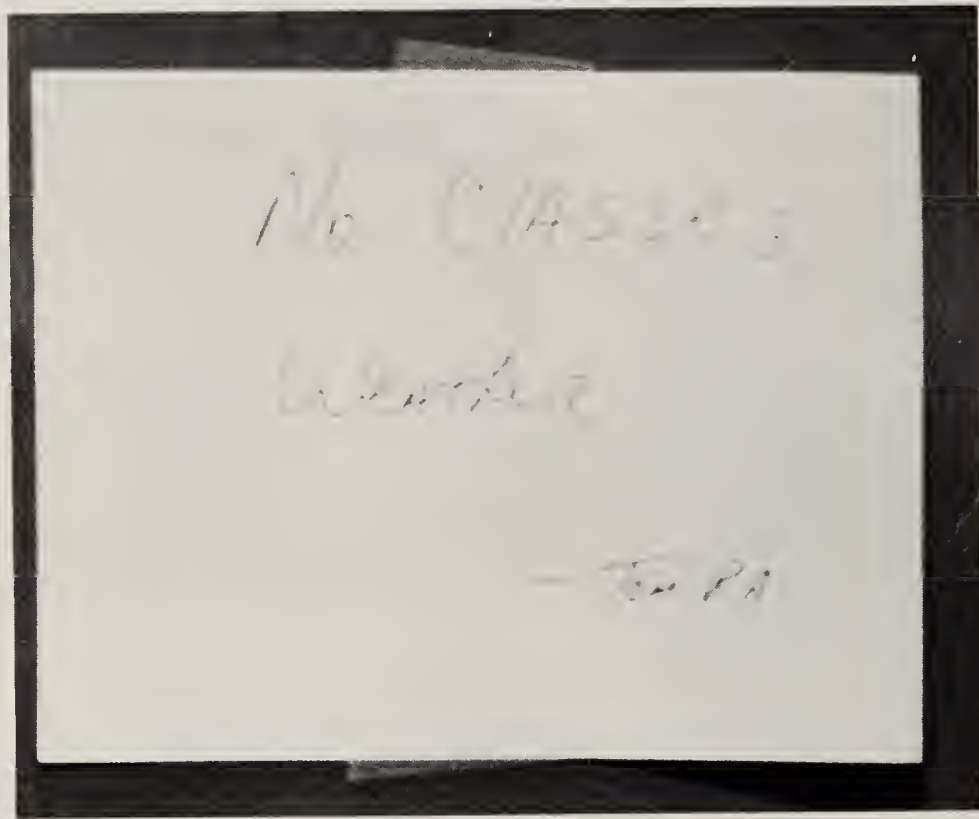

LEFT: A quiet place to study. Judy Wirtz prepares for a test by hitting the classroom early.

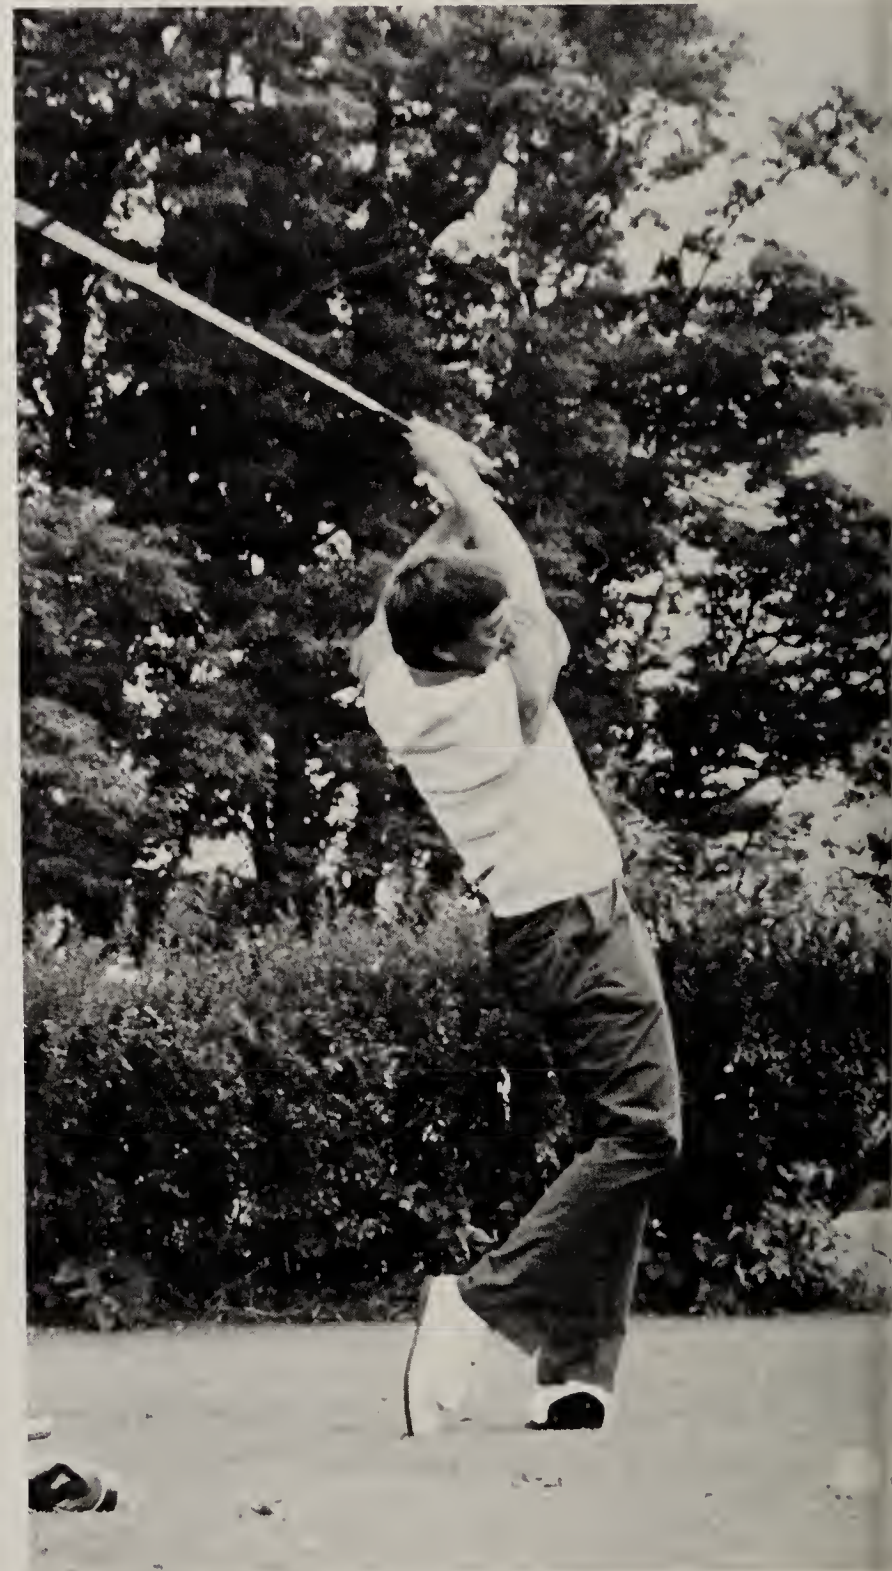

FAR LEFT: Mary Sue Banet and family enjoy the SJC Homecoming game. LEFT: Deep in thought at the SJC reflecting pond. This spot provides a peaceful place for people all year 'round. BELOW: O.K. guys, class is over. Now what should we do?

Tammy Ryan spends some of her free time working in the library.

ABOVE: Classes were cancelled for the first time in several years as the area was hit by an influx of snow. RIGHT: Some people are always putting around.

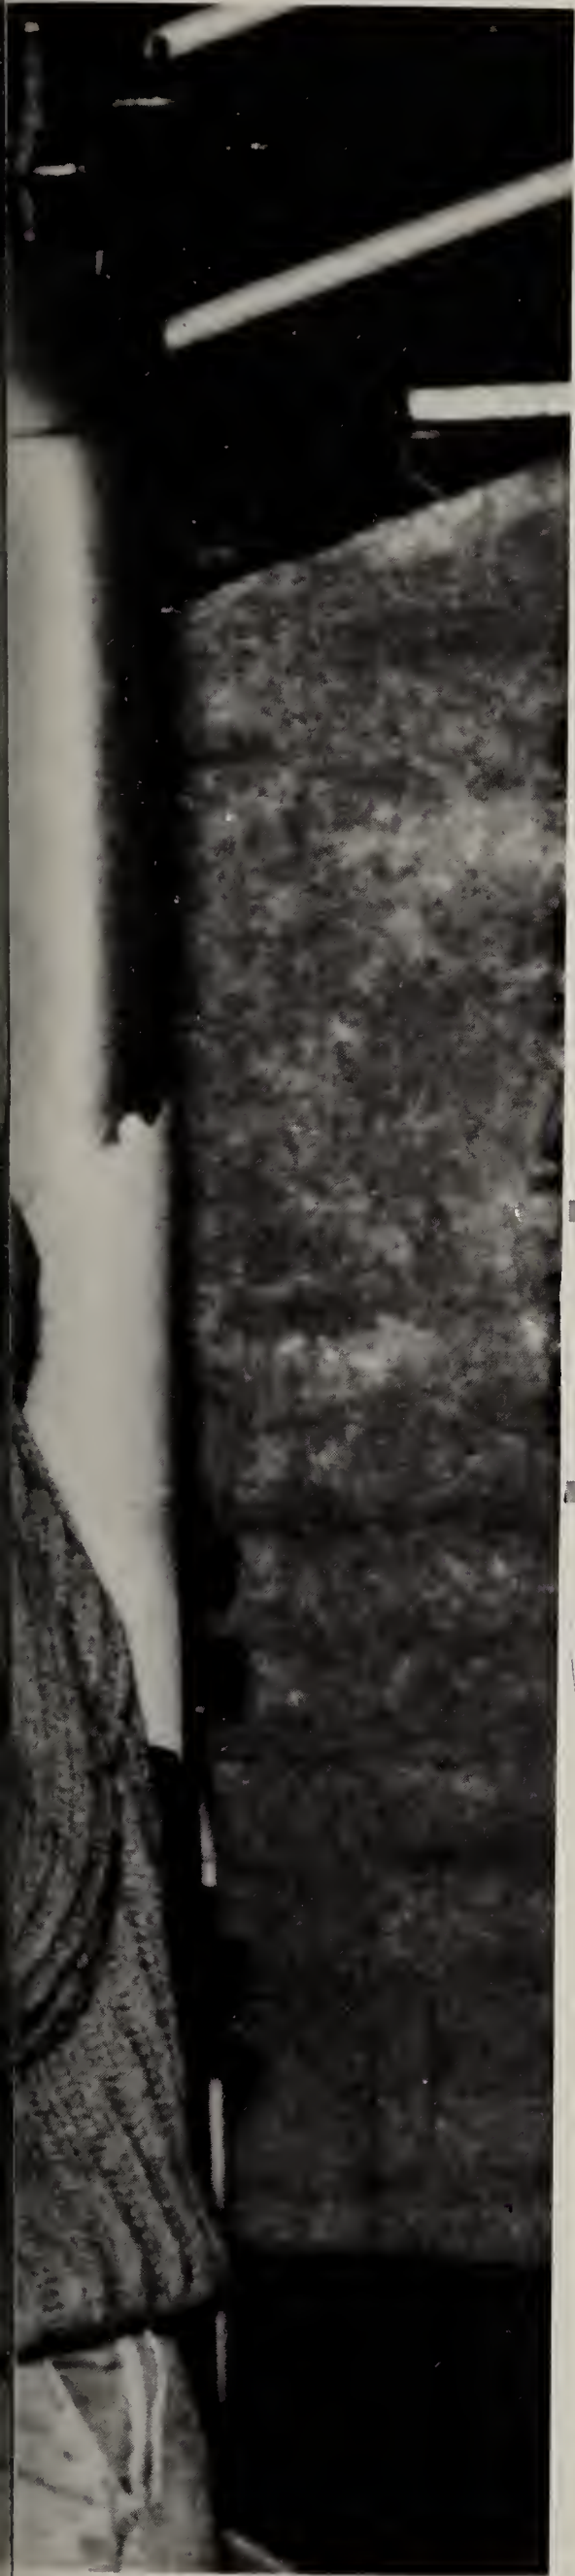

Ginger Rodgers, you certainly look like a movie star in this picture. Could we have your autograph?

*ABOVE: Mary stands serenely by the Chapel.
LEFT: Sharry Kuehn is the one to see if you need a loan from the bank. That's where she works. However, I don't think she'll be able to get you much money.*

One thing that allows a small school to make its own footprints is the notion of people. People are known by faces and names not simply by a number. There is still that personal touch seen and felt on campus.

Yet, we do have a tendency to forget the people who hold the campus and classrooms together. We shouldn't neglect to remember the workers in the

cafeteria, the janitors who keep this place looking its best when we have made it look its absolute worst, the pros we hope we can get for core and those we wouldn't wish on our worst enemy, those who are there for our best interest even when we don't see it that way. These people are an integral part of the college community.

The importance of learning . . . is to prepare us for the confrontation with difference, to educate our sympathies to welcome diversity, to discover what we can be in what we are not. We must learn to glory in the encounter with difference, not only because we have not got any choice. The reason is also that we should not want it otherwise. In finding out things we did not know, we learn. In encountering and entering into worlds we did not make, we discover. In the learning and discovery, we uncover in ourselves things we did not know were there. We find out we can be more than what we are.

Hey, sports fans! Step into the Puma Hall of Fame. This year's intercollegiate sports took fantastic strides, stepping far ahead of their opponents. There were some strange twists that went along with some of the seasons. Some were new milestones in the Puma record book. Championships, winning seasons, new fields, new old fields — all were part of the game.

Yes, who could forget the intramural program! Dedication to such sports as floor hockey, football and softball to name but a few is deeply rooted in the Puma tradition. Even though these sports are not intercollegiate sports, there is still the spirit and enthusiasm present. A great deal of pride is ever present when sporting an SJC intramural Champion T-shirt.

SportS

The season started out tremendously as the Pumas went undefeated in their first few games. Some were quite tough opponents, but the Pumas came out victorious.

The team gave St. Joe students something to cheer about. There was quite a turnout at many of the home games. The cheerleaders and pom pom squads sponsored a few pep rallies to

help get the fans behind their team.

There were some unique twists to season — the Hoosier Dome game Homecoming held at Brookside Park name a few. Whatever the case, Pumas showed us a season and team that we can be proud of. Their diligent effort on the field was quite inspiration.

Hoosier Dome

This was not something that was thrown together at the last minute. Many months of preparation went into making this event a success. Dates of other football games were changed. Contacts were made with Mr. Wilhelm to secure the use of his facility for the tailgate party. Orders were placed with Dining Service to settle arrangements for food. Busses were secured and promotions began.

Once people reached Indy, they were greeted by a tailgate party. There was plenty of food for all. Students, faculty and guests alike joined in the fiesta. While there was still time to spare before the game, some chose to hit the city. (Some of these people never returned to the game.)

Then came time for what all had come to see — the Pumas take on the Franklin Grizzlies. Even though

Franklin is the closer school, the Puma fans greatly outnumbered the fans backing the Grizzlies. The excitement level was high (for some a little too high) as the Pumas dominated the field. The Grizzlies came back to make a game out of it. We stayed right with them until the very last play of the game. Enough to come out victorious.

Cheer- leaders & Pom Pons

ABOVE: The Pom Pon squad under the direction of Monique Saliga has put on some very impressive routines at halftime. RIGHT: The cheerleading squad sends a cheer of good luck to the Pumas.

Many people look at a member of either of these squads and think that they've got such an easy job. Anyone could do what they do. What many fail to see is the amount of time that goes into what may look so easy. Several hours a week are dedicated to practice. Routines must be learned, they don't just come naturally. It's not easy always being up when you're standing in the rain or cold cheering on a team that is so far behind, or trying to get the fans to participate when there may not be any fans there. All this and more is what

LEFT: Valerie Betustak, joining the Pom squad as a freshman, awaits her cue.

remains to be seen by most people.

As if just doing the regular things weren't enough, this year's squads went that extra step. Pep rallies were sponsored by them. One was held at Lake Banet with a bonfire. The other was held in the rec center to break it in and to boost the morale of the team as they psyched up for the Homecoming game.

Regardless what some might think, being on either squad is a great commitment.

The whole squad poses for a family portrait. BELOW: The Pom Pon squad add a touch of color and enjoyment to the field as the teams regroup for the second half of the game.

ABOVE: Coach Rick Mundo looks on as his team is in action on the I.M. gridiron. RIGHT: Team conference on the field as a timeout is taken.

Almost as soon as the school year begins, students step into their shorts and sweats and head for the I.M. field. The actual games may not start for a few weeks but no time must be wasted. Any time from three to five is designated for practice. Little stands in the way of this time for anyone knows that it takes practice to get the team ready for the competition that may take them to the championship.

These team members have not been together as a team in several months. For some freshmen, this is their first chance at joining in with the floor or dorm. This, however, will not be their only opportunity to participate as part of the floor or dorm. They will have many opportunities as the I.M. season steps on. There is still a full array of sports to come along before the school year is over.

See you on the court/field!

ABOVE: Jim Collins and Terri Meier watch as Jeff Serbin sets the ball.

As is well displayed in many of the I.M. photos, the new rec center has seen much action. Many of the I.M. sports are now played in the new building. At first, the new facility and surface took some adjusting to. However, as is exemplified by the creativity of other sports (besides the traditional ones) such as wiffleball being played indoors, this rec center certainly has gotten a good start on the possibilities that it has only begun to see.

ABOVE: Keith Joritz serves the ball during I.M. action. RIGHT: Referee Dan Pfeiffer watches as Cheryl Bukowski and Monique Saliga anticipate their opponents' serve.

No matter what class you're in, those boundaries seem to be broken when it comes to clubs. As depicted in the collage on these two pages, Saint Joseph's clubs and organizations are very diversified. Common interests bring many students together. These interests may be along the academic lines or they may be for service or even purely social. These clubs may serve as an outlet for someone's creative streak

as well as a means to be of service to the college or community at large.

Some groups meet quite regularly while others meet only for special matters such as Homecoming, Monte Carlo, or Spring Fling. Regardless of its nature the organizations on campus play a very vital role. They allow students to step beyond the classroom no matter what the purpose.

The Campus Ministry group is probably one of the most diversified of the groups on campus. They may not all gather at one time together. They share of their gifts and time with the rest of the Saint Joe community.

This year, the team took a chance and tried something new. The Kairos retreat was brought to this campus. It was an awesome experience for those who took part. Hopefully, this tradition will continue in years to come.

Cheerleader

Cheerleading is not always an easy thing to do. Imagine standing in the rain shouting and screaming. Then when you've finished, you can't talk. There are hours of practice which can be very time-consuming. It isn't a seasonal task, either. Football season ends and then

there's basketball season. There is much of a break for these dedicated people. They themselves deserve cheer!

“I see the newspaper as doing two things. It informs the students of what's happening on campus. It also allows the students/staff to voice their opinions.”

Stuff

The staff of Stuff works diligently to keep the campus informed. This information may be on a variety of subjects — sporting events social activities, a hot issue on the minds of many people.

They work to keep up the tradition of the paper. This year they shared their history with us as the paper hit an anniversary year.

Many times the staff does not get the credit that they deserve. It isn't easy to chase people down to track the facts for

a story. Yet, the paper still hits the presses without failure.

Blue Key

Blue Key officers, John Steele, Mercedes Sheehy, and Kim Keller rode through town in the Homecoming parade. All of them put much time into preparation for this event.

The members of Blue Key contribute to the college in two major ways. They are the people responsible for the success of the Homecoming parade. They also are the ones who offer their time and services to tutor those on campus who may need help.

“I feel that we promote a feeling of community between the town and the campus through the Homecoming parade.”

Columbian Players

This group is very diversified. Each has a love for the theater, but contributes something different. Some work on the sets, some the lights, while others may find their joy in actually working on the stage for all to see. No matter what they've contributed, we get the privilege of watching it all come together when the curtain goes up.

"There is a great deal of satisfaction in seeing a production through from start to finish and encouraging others to become involved. Working in the theater has really been fun."

Horseback Riding

The horseback riding club is one of SJC's newer clubs. Those who are in the club joined out of the interest of learning about horses and for the enjoyment of riding. They are connected with a man in the local community who has a ranch. At their whim, members are free to go out to the ranch and ride to their

hearts' content. Some riders have chosen to journey back to campus for their ride while others have chosen to stick to the back roads of the country.

This desire to ride can sometimes be hidden behind the excuse that the horses need to be exercised but we know better!

“I become confident when working with horses and it provides ample opportunity to get off campus with my friends.”

Club members use their skills, knowledge and a plane table to map Lake Banet.

Within these hallowed halls dwell the majority of Saint Joseph's student body. Whether those living within embark on the steps of the future as accountants, teachers, corporate presidents, garbage collectors, or chimney sweeps, these are the places they called home for at least nine months out of every year of their college career.

Some of these buildings and floors are laden with tradition — from particular themes for a party, certain philanthropic projects, to where (or should we say how) the floor Christmas tree was appropriated. All, no matter how simplistic or small, are what make a particular floor what it is and how it will be remembered through the passage of time.

ABOVE: Celine looks perplexed at seeing the camera at her door.

LEFT: A couple of studious residents decided to occupy the first floor lounge. How did you get anything done with people walking in and out?

The East side of Justin seems to be housing the more conservative residents of Justin Hall. Some would consider them to be the more studious people, yet they can be just as obnoxious as the West side residents. They

also know how to have fun and do their share in participating in the annual events of the dorm. Don't be fooled by their quietness. They may be up to some devious plot.

JUSTIN WEST

RIGHT: Here's Renee Simek showing us the serious side of college life. BELOW: Smile big, Sue Nelson, you study machine!

Although Justin is one large building, each side has its own unique personality as does each floor. The West side is seen as being the side with the people who are more likely to be rebels. They, nonetheless, are no less willing to pitch in and help out with any of the more traditional events that Justin sponsors throughout the year.

Some such events are annual picnics, (which sometimes wind up being in the first floor lounge) and the Christmas dance. Even though the residents may feel that their floor is their family, they assist in pulling Justin together as a community.

This appears to be the beginning of something unspoken, like initiation!!

These two are caught up in each other.

The men of Gallagher Hall start off the year right away on the right foot. They have traditionally been the organizers of the Labor Day softball marathon for Muscular Dystrophy. Many of those who stay on campus that weekend participate in this event.

This notion of interest beyond the campus is continued in December. One weekend is primarily sponsored by Gallagher. First, there is a social which raises money for what takes place on Sunday. The needy families of the community are contacted and they are invited to a get-together with Santa. The turnout is usually quite good and the effort is greatly appreciated.

Gallagher also sponsors a floor hockey marathon. This gets everybody geared up for the season which doesn't start until second semester.

It seems so long ago that we were registering as freshmen. We were scared and uncertain of just what the future held. At the same time it seems as though it was yesterday. We've made new friends along the way and met many people. At times, these people have been the cause of many headaches but have been responsible for many treasured memories, ones that we will always carry with us and will never forget.

Along the way, some of the people that entered Saint Joe's with us as

freshmen have since left the institution for one reason or another. We don't wish to forget those people. They, too, have touched our lives in one way or another.

The people who have been there the longest are those who will join in walking across the stage to receive that ever desired (sometimes so far away) diploma. These are the ones who have helped us grow and learn about each other and ourselves outside the classroom. It is to them that these next pages are dedicated.

ABOVE: Dennis O'Hara chats with Coach Bill Reagan. RIGHT: Katie Murphy's enjoying Core XI after the senior breakfast. (Then again, when doesn't Katie enjoy a good bar!) FAR RIGHT: Kelly Kerber and Michelle VanWynsberghe display their Christmas spirit.

From the onset of the year, the seniors realize that they are stepping to a different drummer. They begin partaking in activities that are especially for them and in their honor.

As the first semester draws to a close, one of the annual events is planned. Seniors are honored at the midnight breakfast by faculty and staff alike. With finals being wrapped up signaling the onset of their last semester at Saint Joe's, this event takes these seniors in a different direction. They seem to realize that they are set apart from the rest of the student body as they prepare to step beyond the college experience. At this time, they celebrate not only the coming together as a class but the holiday season that is upon them. As they each return to their respective homes for the holidays, each senior can take a little of Saint Joe's warmth with them for they have begun by celebrating with their friends at their home away from home.

"Smile pretty for the camera, girls. Let's make the most of it while we're all still here."

ABOVE: A toast to the senior breakfast and the class of '87. RIGHT: Togetherness at Core XI. Looks to me like a group that should be in an old English pub celebrating the holidays and ringing in the new year.

FAR RIGHT: Mr. Jennings takes time out from his duties of waiter to pose with Janet Bowyer. RIGHT: Early Christmas cheer brings good friends together like Katie and Kent.

TOP: Lana Flores, Janet Bowyer, and Cindy Harding pause outside Halas lounge for a snapshot. ABOVE: Therese Yanan and Doc Egan stop at the back of the Chapel for a chat before the Midnight Christmas Mass. RIGHT: Tim, you're only a junior, but just couldn't resist this picture.

TREASURED MEMORIES

OLD friends cannot be created out of hand. Nothing can match the treasure of common memories, of trials endured together, of quarrels and reconciliations and generous emotions . . . We forget that there is no hope of joy except in human relations.

Gerry Nisle checks his swing as he decides against taking the pitch. A Puma may be eating the dust but he's safe as he slides into second base. John Stitz goes to take his base after he's been walked.

BASEBALL

Don Bollman puts his all into sending the ball home. Fellow Pumas leave the bench to welcome a teammate across homeplate.

MEN'S BASKETBALL

John Stitz beats his opponents down court for a clear lay-up. Chris Brown is airborne as he shoots for two. Matt Eckert makes his way down the court. Pumas are wall to wall inside the key as teammate John Stitz tries to hit the backboard and rebound the ball up to the Puma score.

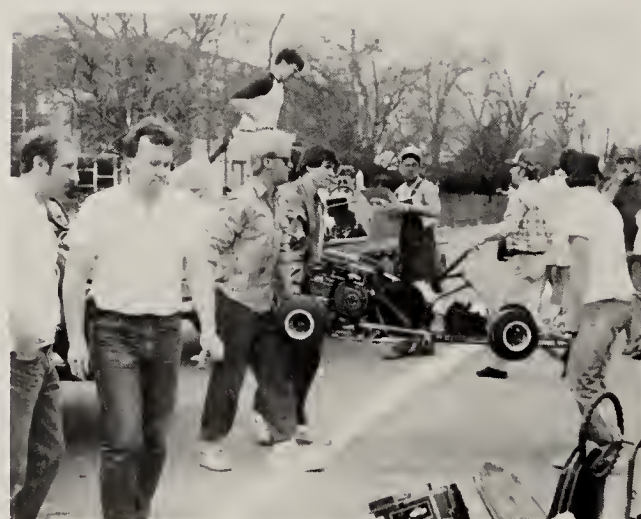

WOMEN'S BASKETBALL

Tracy Payne out-jumps her Northern Kentucky opponent to the tip-off. Janet Yeoman shoots for two. At the freethrow line stands Corey Krekler as she takes her shot. Hustling down court is Janet Yeoman to beat her opponent to the basket.

Barclay Dwight makes his move in the first turn to overtake Jon Messman. Winning car #44 and crew Mike Wesley, Wayne Borowski, Jim Schlensker, John Roach, Tom Flynn, and Jenny Hawkins proudly display the checkered flag. Preparation for the Little 500 is a campus-wide effort. Tom Messman heads into the fourth turn. The crew of car #41 make some minor adjustments before the car re-enters the track. The karts are taken off the truck and placed in the pit area in preparation for the race.

LITTLE 500

John Roach in kart #44 leads the pack into the first turn. Sean Hanlon pitches in to secure the fencing for the safety of both the drivers and the spectators. John Roach takes his victory lap with the flag in hand. Crews set up their pits for the big event.

SENIOR DINNER

The candidates for Senior of the Year as well as their parents stand to be recognized and congratulated for their accomplishments. Mr. and Mrs. Maniscalco and Father White mingle with some senior parents. Barclay Dwight, Dave Calcutta, and Suzie Post converse before the dinner commences.

Dave Mann, Darrell Wilder, and Marshall Minth together at the Senior Dinner for a picture. Larry Kissinger expresses his gratitude for being selected as Senior of the Year. Father Charles Banet extends his congratulations to the Class of 1987.

Joe Ruzevich displays his t-shirt which his classmates signed at the Core XI party commencement weekend. Ted Zielinski and Jeff Cipowski try their hand at a friendly game of darts.

Vince Sessa and Jeff Cipowski toast the Class of '87. John Yakubec poses with his mentor, Fred Berger.

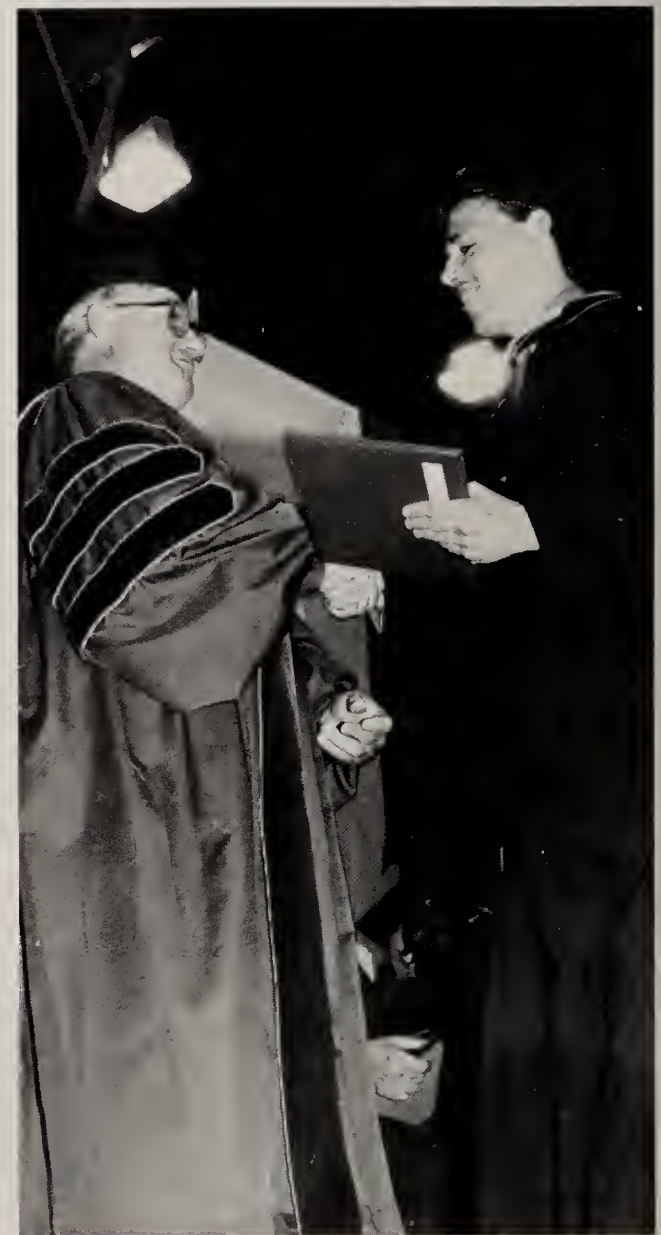

CORE XI SENIOR SOCIAL

Core XI's a hopping place Thursday night before Commencement. Seniors, in an effort to remember the friends made here at Saint Joe's, had classmates and faculty sign t-shirts that were given to them by the Commencement Committee.

COMMENCEMENT

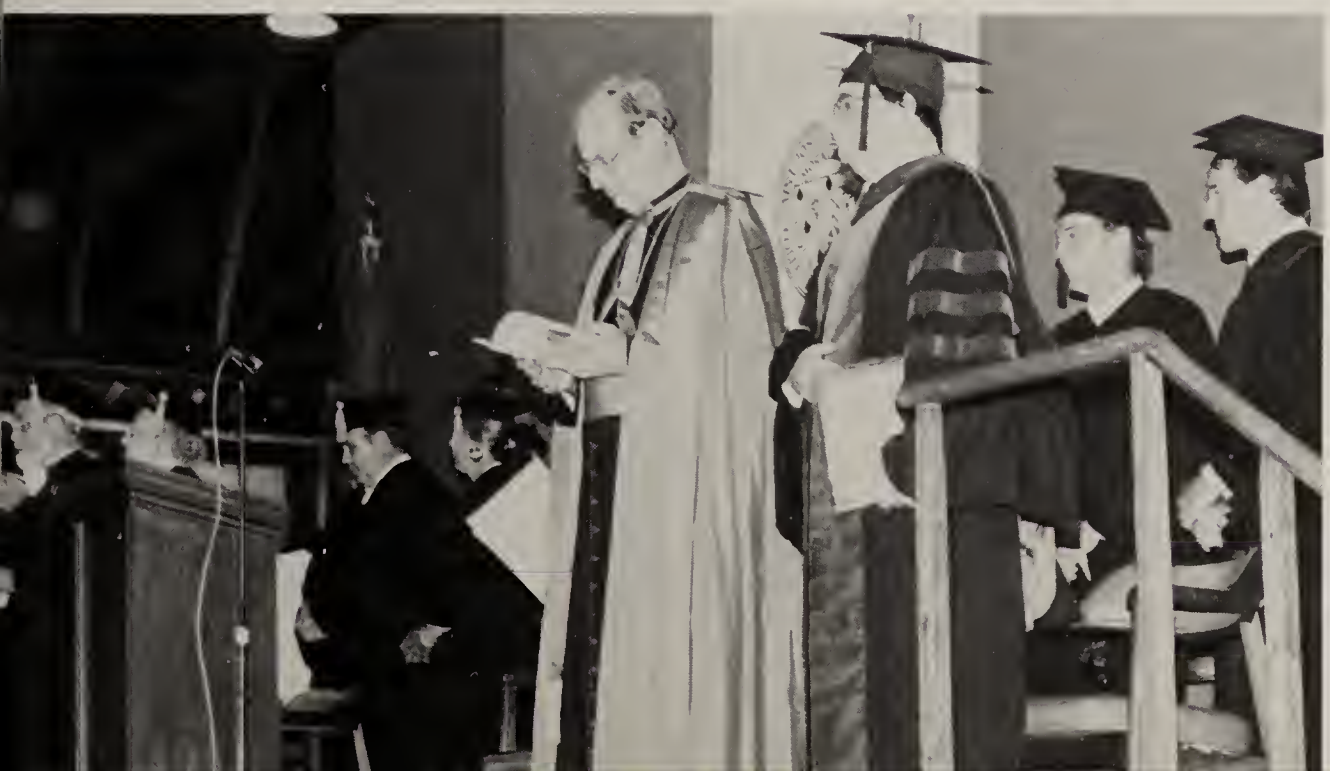

Father President Banet, a guest to the college, Bishop Higgi, and Trustee James Madden process to the Fieldhouse for Commencement exercises. The graduates are led into the Fieldhouse greeted by family and friends. Tom Farwell, Dave Council, and Mike Boyda lead the procession from Halleck Center to the Fieldhouse. Father Banet congratulates John Yakubec as he presents John with his diploma. Darrell Wilder approaches the stage as Mike Wojtysiak, Tim Woloszyn, John Yakubec, and Therese Yanan anxiously stand by for that long-awaited moment.

Bishop Higgi, Ray Merritt, Paul Sommers, and Larry Kissinger wait for the graduates to take their seats. Father Banet welcomes the graduates, their families and friends to the ninety-second Commencement Exercises. Jeanette Klodzen, co-valedictorian, addresses her classmates remembering the hard work that it took to make it through college. Senior of the Year, Larry Kissinger, speaks of his fond memories of times spent with friends he's made along the way.

CLOSING

Kevin Reid, Joe Shrader, and Kathy Bruin are all smiles as the year comes to a close. Tom Stefaniak, Kim Keller, and Mary Ryan make their way through the buffet line at the Senior Champagne Brunch. Scott Hibbard leaves his mark on the class board that will be displayed in Halleck Center. Dr. Nichols and Professor Scherb join John Freiburger as faculty and students dine together for the last time. Seniors, faculty and underclassmen alike come together to dance, mix, mingle, and have a great time.
